

Clear Valentine Album Tutorial

Supplies:

Paper Temptress Clear Cardstock

Assorted Paper Temptress papers

Die cut Machine, template or anything you can use to cut uniform hearts from the clear card stock.

Rub Ons

Xyron Machine or other adhesive

Rubber Stamps: I used Hearts in Touch

Various ribbons, eyelets, brads, flowers, lace, stickers or any other goodies you have at your disposal.

Page One:

Run heart through Xyron or use adhesive of your choosing. Apply a piece of lace and trim to size.

Embellish as desired , add title with label maker. Set aside.

Page Two:

Stamp image and run through Xyron face down. Adhere to back of clear heart.

Add rub ons to front of heart.

Page Three:

Stamp image and mount on oval die cut. Run through Xyron and adhere to back of clear heart.

Run heart doily through Xyron and adhere to back of clear heart over the stamped image.

Attach flowers with brads and embellish as desired.

Page Four:

Cut heart out of black basis Paper Temptress paper, the same size as the clear hearts.

Put clear heart in Cuttlebug or other embossing folder and emboss.

Run black heart through the Xyron and attach to the back of the clear embossed heart.

Place stamped image on front and embellish as desired. I only used a charm as I didn't want to detract from the embossed clear cardstock (which I think is so AWESOME!)

Page Five:

Sponge red acrylic paint around the edges of the clear heart. Allow to dry. Place pearl gems around the outside perimeter of the heart in the painted section.

Run stamper image through the Xyron face down and adhere to back of clear heart.

Add ribbon or other embellishment of your choosing.

Page Six:

For this page I just used rub-ons to match the Valentine Theme

Page Seven:

I cut the last page out of Paper Temptress bubblegum Pop Tones, and stamped directly on it. I wanted a sturdier page for the last one.

Completing the Album:

Punch two holes in the upper left corner of all the pages, taking care that all the pages match up. Close together with two binder rings and add ribbons to the rings.

Your clear Valentine Album is finished and ready to present to your special someone.
